MESSAGE FROM NIS CHAIRPERSON

WELCOME TO NIS

"We are what we repeatedly do. Excellence, then, is not an act, but a habit."
~ Aristotle ~

Dear Parents,

Thank you for entrusting the education of your child to **NIS**.

In a world of constant change, it is more important than ever to prepare our young people for the challenges and opportunities they will face as 21st century adults. **NIS** seeks to develop and inspire students who are articulate, knowledgeable, organized, compassionate, creative, responsible, and able to learn and adapt to new information, new technologies, new situations, and new people. As our world becomes "smaller," we seek to bring that world to our students with an informed appreciation of its diversity, depth, and almost limitless possibility. This is our mission, our passion, our labour of love, and our promise.

Owing to our reputation for holding high educational standards and our committed work with students, **NIS** graduates have the opportunity to attend a wide range of universities both in Egypt and abroad.

We are eagerly looking forward to working with you to make this a great year for your child's education and development.

Dear Students,

Welcome to **NIS, Cairo, Egypt!** If you are a *returning student*, we hope you had a wonderful summer and have come back refreshed and ready for another fun and productive year with the **NIS** family—we missed you!

If you are a *new student*, meanwhile, we extend an extra-special welcome to you. We are very happy to have you with us and hope you find your new school, **NIS** an interesting, challenging, and exciting place to be. You should know that our expectations for all students—new as well as returning—are high. Why? Because we believe in your potential as a student and as a human being! Potential, however, is only a beginning; to become the best that you can be requires hard work, self-discipline, organisation, and persistence. Working together, we can help you achieve your academic and personal goals. We cannot learn for you, but, if you are willing to work hard with us, there is no telling where your hopes and dreams may take you.

We look forward to enjoying a wonderful and fulfilling year with you!

Sincerely,
Nadia Hafez
Chairperson of NIS Board

PURPOSE OF POLICY

The purpose of the Child Protection and Safeguarding Policy is to provide a secure framework for the workforce in safeguarding and promoting the welfare of those pupils who attend our school. The policy aims to:

- reduce the risk of abuse occurring, and to ensure that a caring and appropriate response is taken should abuse occur;
- ensure that all our pupils are safe and protected from harm;
- ensure all other school policies are in place to enable pupils to feel safe and adopt safe practices;
- ensure that all staff, pupils, governors, and parents are aware of the expected procedures for safety.

It occurs when a person uses his power and authority to take advantage of another's trust to involve them in sexual activity. It does not necessarily involve genital contact but is any act which erodes the sexual boundary between two persons. It may appear consensual but the validity of consent is negated by the difference of power.

C) EMOTIONAL ABUSE is the chronic attitude or behavior of one person, which is directed at another person, or the creation of an emotional environment which erodes a child's development, self-esteem and social confidence over time. Behaviors may include: devaluing, ignoring, rejecting, corrupting, isolating, terrorizing or chronic and extreme domestic violence in the child's presence.

5) E-SAFETY/INTERNET ABUSE/CYBER BULLYING

Online safety means acting and staying safe when using digital technologies and social media. It is wider than simply internet technology and includes electronic communication via text messages, social media and apps, and using games consoles through any digital device. In all cases, in school and elsewhere, it is a paramount concern.

- **Content Risks:** the child or young person is exposed to harmful material.

The school has a responsibility to ensure that there is a reduced risk of pupils accessing harmful and inappropriate digital content. It should be energetic in teaching pupils how to act responsibly and keep themselves safe. As a result, pupils should have a clear understanding of online safety issues and, individually, be able to demonstrate what a positive digital footprint might look like.

Safeguarding and promoting pupils' welfare around digital technology is the responsibility of everyone who comes into contact with the pupils in the school or on school-organized activities.

PROCEDURES TO KEEP A SAFE ENVIRONMENT

In Nefertari, we align with all the IB requirements and follow the IB philosophy in our learning and teaching, which is indicated in the school's mission and vision.

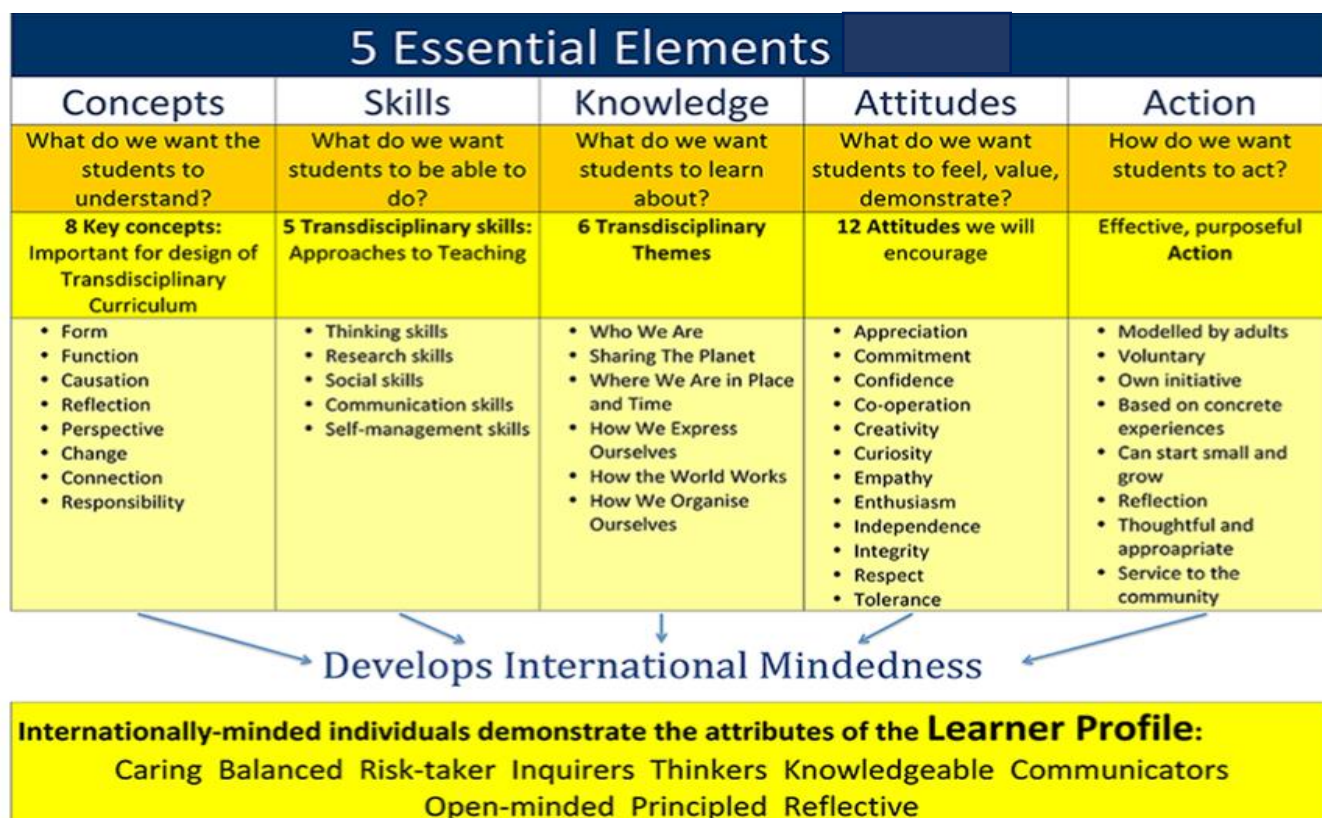

IB-PYP/MYP DIVISIONS

Transdisciplinarity: a principle

Transdisciplinarity is a curriculum-organizing principle to offer students a broad, balanced, conceptual and connected learning experience. In order to engage students in transdisciplinary learning, schools create a programme of inquiry that maps the transdisciplinary themes students explore each year and throughout their time in the school. The programme consists of units of inquiry that span across, between and beyond subjects at each year level.

A well-designed programme of inquiry ensures students experience a balance of subject-specific knowledge, conceptual understandings and skills, alongside opportunities to develop the attributes of the IB learner profile and to take action.

The programme of inquiry is a long-term plan that provides students the opportunities to evolve their theories, address misconceptions and deepen understandings. Through the programme of inquiry, they build upon what they have learned in previous years, extending their understanding of the transdisciplinary themes as they revisit them throughout the early and primary years of education.

HOMework

- NIS recognizes regular, purposeful homework as an essential component of the instructional process.
- Homework is an integral factor in fostering the academic achievement of students and in extending school activities into home and community.

- Homework is posted to LMS (Classera) for students and parents.
- Homework must be dated.
- Homework assignments must be completed for the following day or as planned.
- Homework must be corrected and returned in a timely manner.
- Teachers must stress the importance of handwriting and neatness. Students should be asked to repeat the assignment if it is not properly prepared.
- Academic honesty should be stressed on as part of the homework requirements.
- **REGULAR HOMEWORK PROVIDES OPPORTUNITIES FOR**
 - Developmental practice.
 - Drill.
 - The application of skills already learned.
 - Enrichment activities.
 - Project work
 - Confidence and self-discipline.
 - Supporting the home-school relationship

IN ASSIGNING HOMEWORK, TEACHERS SHOULD CONSIDER

- The homework assigned by other subject teachers.

Deductions will be considered or even dropped, if students show improvement and commitment throughout the academic year.

Repetitive act of negligence of submitting the homework, will result in putting the student on academic probation.

IBDP

For students studying in the **IB Diploma Programme (Grades 11–12)**, the expectations of workloads and homework loads are increased in both intensity and duration. Students are expected to have developed sufficient organization and self-management skills to effectively structure their homework and study time to meet their deadline. This includes completing tasks and homework over the weekends and during holidays which is an effective time to consolidate, reflect, revise and complete internal or external assessments as a way of maximizing their usage of time, and minimizing stress.

As DP students are aware of significant due dates in advance, students with an absence for the day that an assignment was due must inform the subject teacher by email and CC the DP Coordinator on that. The candidate must hand in the assignment on the deadline assigned unless the DP Coordinator decides otherwise based on the reasons and evidence for absence. Failure to meet a course deadline might result in not receiving the International Baccalaureate Diploma.

STANDARDIZED TESTS

EST 1 & EST 2

The Egyptian Scholastic Test (EST) is an entrance exam for the Egyptian Universities (Tanseek) to measure the students' knowledge and skills in Literacy and Math. The total score is 1600; 800 for Math and 800 for Literacy. All students in grade 11 and 12 can sit for the exam. The test is administered 6 times in the academic year. Students and parents are strongly advised to read the college guide.

MAP

Measures of Academic Progress (MAP) is a computer adaptive test which helps school to measure students' growth and progress overtime. It covers Reading, Language Usage and Mathematics. The school administers the test for all students in Grade 4 to 9/PYP/ MYP.

ACT1 & ACT2

American College Testing (ACT) is a computerized test for students who wish to apply for international universities. ACT tests students in Reading, English, Math and Sciences. ACT score is out of 36.

TOEFL/IELTS

Test of English as a Foreign Language (TOEFL) and International English Language Testing System (IELTS) are English language Proficiency tests that are required for international universities and few local universities.

IMPORTANT NOTES

- Two subjects of ACT2, EST2 are required for joining Faculties of Engineering, Medicine, Pharmacy or Dentistry.
- Taking the ACT2, EST2 gives the student an automatic 15% bonus to the student total grade.

PLEASE NOTE THAT UNIVERSITY AND COLLEGE ADMISSION POLICIES CHANGE EVERY YEAR

3. IBDP DIVISION

IB Diploma is awarded based on a range of assessments, primarily external examinations taken in all subjects in May of Year 12. All courses also include some internal assessment (work which is marked by the teacher before being moderated by the IB). Each subject is graded on a scale of 1 (minimum) - 7 (maximum). In order to earn the IB Diploma, the student must meet defined standards and conditions including a minimum total of 24 points and the satisfactory completion of the three core IB Diploma requirements: theory of knowledge (TOK), Creativity, Activity, Service (CAS) and the extended essay. The minimum score of 24 is based on the notion that a grade 4 represents a passing level in each of the six subjects. Excellent performance in the six subject areas results in a grade 7 for each, or a total of 42 points. TOK and the extended essay combine to contribute a possible 3 additional points to the overall score, giving a maximum IB Diploma score of 45 points.

THE COMBINATION OF GRADES WITHIN TOK AND THE EXTENDED ESSAY ARE

		Theory of Knowledge				
		Grade A	Grade B	Grade C	Grade D	Grade E
Extended Essay	Grade A	3	3	2	2	Failing condition
	Grade B	3	2	2	1	Failing condition
	Grade C	2	2	1	0	Failing condition
	Grade D	2	1	0	0	Failing condition
	Grade E	Failing condition	Failing condition	Failing condition	Failing condition	Failing condition

Attaining a grade 'E' or non-submission of work in either TOK or the extended essay represents an automatic failure of the IB Diploma.

INTERNAL (SCHOOL) EXAMINATIONS AND REPORTS

- There are school quizzes along the academic year, unite tests, mock examinations, for IBDP students in November and at the end of each semester of Year 11 and in August and January in Year 12.
- Reports are issued after each unit test in November and March at the end of each semester (end of January and end of June).
- Progress report is issued in year 12 after the back to school exam in September.
- IB official examinations take place in May Year 12.
